

Watershed Science Technician

The Athabasca Watershed Council is seeking a motivated, outgoing summer student to join our team. This is a temporary position suited for a returning undergraduate student, that will start in May and end in August, depending on the successful candidate's school schedule.

The Watershed Science Technician will assist with the [AWC's Healthy Shorelines Initiative](#). For more information about the Athabasca Watershed Council, visit our website <https://awc-wpac.ca/>.

Your Duties will include:

- Research and development of science related materials and factsheets
- Assist the Watershed Science Coordinator with the Healthy Shorelines Initiative
- Assist with on-the-ground projects that include planting, watering, installing pond levellers, and site documentation
- Assist with water quality monitoring in the Pembina River watershed
- Share your passion and interest for land and water conservation by supporting local stewardship groups
- Conduct youth environmental programs within the Athabasca watershed
- Assist with outreach and educational activities
- Contribute stories and pictures to use in our outreach materials such as newsletters and social media
- Various duties within an office and field setting

Qualifications and Requirements:

- You are a second year or more undergrad enrolled in biology, environmental science, or another science program
- You are between 15 and 30 years of age (inclusive) at the start of employment
- You are a Canadian Citizen, permanent resident, or person on whom refugee protection has been conferred under the Immigration and Refugee Protection Act
- You are legally entitled to work according to the relevant provincial/territorial legislation and regulations
- You are interested in watershed planning and education
- You are friendly, outgoing, and organized
- The quality of the work you produce is important to you
- You are comfortable working with various groups of all ages
- You have good written/spoken English and effective communication skills
- You are a good writer, presenter and public speaker
- You have good research, Office Suite and social media skills
- You are effective working independently and as part of a team
- You are available to work some evenings and weekends

- You have a valid Class 5 driver's license, a computer, and access to an internet connection.
- You have the ability to plant trees, water plants, and install pond levellers.

This position is based in Athabasca, Alberta. Remote/hybrid working will be considered. In your cover letter, please indicate when you will be available to start.

Start date: May 2023.

Submit your cover letter and resume by April 7th to:

Sarah MacDonald, Watershed Science Coordinator
